

REMARKS

INTRODUCTION

Claims 24-25 and 30 are cancelled herein. Claims 1, 8 and 26-28 are amended herein. Claims 1, 3-8, 23 and 26-29 are pending and under consideration. Claims 15, 21 and 22 are allowed.

DOUBLE PATENTING

In the Office Action, claims 1, 8 and 25 were rejected under the judicially created doctrine of double patenting. The Examiner is referred to the Office Action for the details of the rejection, thus the rejection is not repeated herein. Applicant respectfully notes that a terminal disclaimer is not being filed at this time. Applicant further notes that an appropriate terminal disclaimer may be filed at such time as the outstanding issues in the claims are resolved.

REJECTIONS UNDER 35 U.S.C. §103

Using independent claim as an example, this claim recites an electrical components area attached to the base; the base formed by bending each end thereof downwardly and inwardly to space the transformer from the surface of the electrical components area by a certain distance. It is respectfully submitted that the cited references do not teach or suggest these features.

Accordingly, withdrawal of the rejections is requested.

CONCLUSION

In accordance with the foregoing, it is respectfully submitted that all outstanding objections and rejections, except for the double patenting rejections, have been overcome and/or rendered moot. And further, that all pending claims patentably distinguish over the prior art. Thus, the application is submitted as being in condition for allowance which action is earnestly solicited.

If the Examiner has any remaining issues to be addressed, it is believed that prosecution can be expedited by the Examiner contacting the undersigned attorney for a telephone interview

to discuss resolution of such issues.

If there are any underpayments or overpayments of fees associated with the filing of this Amendment, please charge and/or credit the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
